**BUNCH-FLOWERED
TULIP**

B6029—This is a new tulip from Holland. It is bunch-flowered, having an average of 5 blossoms per stem. Each flower opens a soft yellow, quickly deepens, and then there appear stripes and bands of vivid orange-red.

A bed of them makes a remarkable riot of color; you, and your friends, will marvel at it. By cutting the stem low, the flowers of just one plant make a nice natural flower arrangement. And several make a real bouquet. **30c each; 3 for 75c; 12 for 2.40; 24 for 4.45, ppd.**

FLORIBUNDA ROSES

THEY BLOOM ALL SEASON

Again this year, as last, we sold more Floribunda Roses than hybrid tea roses. This proves that people are fast learning that the Floribundas give great masses of blooms from spring until late fall, and that their colors are more brilliant than any known tea rose.

HYBRID ELM

Long-Lived—Disease-Resistant

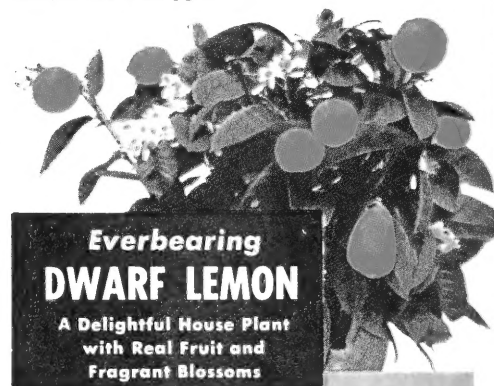

If you want shade in a hurry, yet want a tree that is hardy, long-lived, and hardwooded, Henry Field's Hybrid Elm is the tree for you. It combines the permanence and beauty of the American Elm with the rapid growth of the Chinese Elm. It has all the good points of both elms, but none of the bad.

Henry Field's Hybrid Elm is extra hardy—it keeps right on growing in weather hot or cold, wet or dry. The leaves are large and dark green, much like the foliage of the American Elm. The bark is smooth and of medium gray color. The branches grow straight and strong; have great resistance to breakage from high winds, ice, and snow.

And apparently Henry Field's Hybrid Elm is immune to Dutch Elm disease. We have sold several hundred thousand of these trees during the past ten years, and to date know of not one case of Dutch Elm disease with a Henry Field Hybrid Elm.

Henry Field's Hybrid Elms grow so fast in our nursery rows that they get too big to ship by parcel post, so we ship them by express, already pruned for planting.

Large Bulbs—Lots of Them—All Named Varieties

We have always figured it takes plenty of tulips to make a good show, so we try to have a real reasonable offer, particularly for the folks who need it—all the rest of you are welcome too.

For many years, Henry Field's "Rainbow Tulip Collection" has been famous. It's a lot of bulbs, good bulbs, and good varieties, for only **1.00, postpaid.**

Now these aren't little bulbs, but big ones—10 to 11 centimeter size. In plain English that's about 1¼ to 1½" in diameter. And they aren't just

any old mixed bulbs swept up off the floor or out of the corners, or left-overs. We buy 20 named varieties of the finest Darwin tulips and mix them right here in the seedhouse. Drop in at bulb time and we'll show you.

If you want these bulbs, better order early because we usually sell out quickly on this collection.

No. B7062X—1 collection (15 bulbs) for **1.00. 2 collections (30 bulbs) for 1.95; 6 collections (90 bulbs) for 5.50. All postpaid.**

GIANT RAINBOW COLLECTION

B7065X—Here is a special bargain in the GIANT-sized bulbs. It is made up of Holland-grown, named varieties that you will be proud to have growing in your yard. Your neighbors will admire them, and, if they know anything about tulips, they will recognize their quality. These bulbs will pro-

duce amazingly large flowers next spring. All colors—we buy named varieties and mix them ourselves!

REMBRANDT TULIPS "The Painted Tulips"

B6375—Our catalog is one of the very few in which you will find these "painted tulips". We always have been strong for them because we know most people like plenty of color, and the Rembrandts certainly are colorful.

They grow like Darwins, are about the same size and shape, but the flowers are striped and flamed, or flaked, with vivid colors.

Mixed Rembrandts, all colors: **3 for 55c; 6 for 89c; 12 for 1.59; 24 for 2.79; 100 for 9.98, postpaid.**

King of the Tulips RED EMPEROR

Largest, Most Brilliant, of All Tulips

B6116—This tulip has everything. It is the earliest to bloom, is the most brilliantly colored, and is the largest in size of all the tulips.

If we could grow just one tulip, this would be it. If you have grown them, you know. Plant them on each side of the front steps, or a whole bed of them. You'll really have something to show. People will see them from a block away. **3 for 55c; 6 for 92c; 12 for 1.59; 24 for 2.89, postpaid.**

EARLY FLOWERING TULIPS

Improved varieties with a wide range of clear, bright colors you will be happy to see early in the spring. The petals are more pointed, blossoms more open, than most tulips. They look very much like the pretty pointed caps the Dutch girls wear. Stems of medium height.

B6272—SPECIAL MIXTURE of named varieties. **3 for 50c; 6 for 85c; 12 for 1.59; 24 for 2.79, ppd.**

Tall, Rich-Colored BREEDER TULIPS

Breeder Tulips are different because they have longer stems (up to 40 inches) and because their colors are richer and darker.

This makes them particularly suitable for the back of the row, or in the center of the bed. Their deep, rich, bold colors accent the beauty of the lighter, brighter-colored tulips. Also fine planted alone.

B7000X—COLLECTION. 2 each of 6 leading varieties of Breeder Tulips. **12** bulbs, all labeled, only **1.69.**

B6010—MIXED BREEDER TULIPS. Mixed colors but all dark and long stemmed. **3 for 50c; 6 for 85c; 12 for 1.49; 24 for 2.69, postpaid.**

DAFFODILS

Daffodils (sometimes called Narcissus also) are among the most beautiful of bulbous flowers, and they grow well in most parts of the U.S., particularly the midwest. Once established, they live for years.

Plant them 4 or 5" deep in heavy soils, or 6 to 8" deep in light sandy soils. Use them in beds, as edgings to walks or beds, around shrubbery, or in groups in lawns or woodland places. They are among the finest of all cut flowers too.

It is good to lift and replant the clumps of bulbs every three or four years, to avoid crowding. Before doing this, let the foliage turn to a lifeless yellow.

Daffodils also make fine house plants for early spring bloom. For this purpose, they should be potted in the fall and left in a cool dark place until about January. Then bring them into a warmer area, but not in full light, until the leaves start up well. When the buds start showing, bring the plant into full sunlight.

B6625—ORANGE GLOW (Helios). Showy and brilliant. Forces well. **3 for 70c; 6 for 1.25; 12 for 2.29, postpaid.**

CROCUS

Try Them in Rock Garden, or Under Tall Shrubs. Also Indoors

Crocus come up with the melting snow, and are so welcome after the long winter months. Grow them among the shrubbery, or right out in the open in the lawn. They will have bloomed and died down early enough not to interfere with mowing the lawn. Try some in corners too. Very easy to grow. And all are the GIANT-flowered kind.

Hyacinths, as pictured above, not only are beautiful outdoors but make very fine indoor potted plants.

HYBRID AMARYLLIS

BG401—One of the most striking flowers you can grow indoors. In fact, it is one of the most beautiful and spectacular of all bulb plants.

Henry Field's hybrids have big, wide-petalled flowers, averaging 4 to 6 inches across, and often having ten or more blooms on a stem. Coloring is gorgeous, ranging from almost white to a real dark red with delicate shadings.

Planting and care are simple. Just put a bulb in a pot with ordinary soil, with the neck and about one-third of the bulb above the soil. Put in a cool, shaded place. Water

sparingly until several inches high. Then bring out of the shade, give plenty of water, and keep at a temperature of around 70 degrees.

Mixed colors only. **59c each; 2 for 1.10, postpaid.**

PLUME HYACINTH

Miniature Tree Hyacinth

B6533—This is a rather scarce perennial of unusual beauty. Unfortunately, no photograph ever does it justice. Its gossamer beauty must be seen to be appreciated. The light purple flowers are borne in plumes 18" long. Like it warm and dry. **25c each; 3 for 70c; 6 for 1.20; 12 for 2.15, postpaid.**

CALLA LILIES

for Potting

We have some dandy Calla Lily bulbs that are ideal for potting. They're big, healthy bulbs that will make tall, stately blooms and fine, beautiful foliage.

Calla Lilies are easy to grow and require only ordinary care. Really are hard to beat for a potted plant. Full directions come with each order. Available in these three colors:

BG411—White; BG412—Yellow; 40c each; 2 for 69c, postpaid. BG417—Pink (a new, different, rare type), 50c each; 2 for 89c, postpaid.

Calla Lily Collection

BG592X—1 each of Pink, White and Yellow—all three colors for only 1.09, postpaid.

MAGIC LILY

or Hardy Amaryllis

B2088—In the spring, it throws out a cluster of leaves which die down in early summer. Then, as if touched by magic, stems pop out of the bare ground, grow 2 to 3 feet high, each bearing several large, lilac-pink, very fragrant lilies. Make good cut flowers too. Large flowering bulbs, **49c each; 3 for 1.29, postpaid.**

FALL-PLANTED PERENNIALS

Start Earlier, Grow Better Next Spring

Fall is the best time to plant perennials. Just mulch the first year, after ground freezes, to prevent heaving.

You ought to plant plenty of perennials because they are low-priced and easy to plant and take little care. They come up year after year and give you blooms throughout spring and summer and fall.

Order now. Shipment will be made as soon as plants are dormant, sometime in October.

How Our New Method of Wrapping Perennials Gives You Better Plants

Practically all of the perennials that we ship in the fall are field-grown plants. Just as soon as they become dormant enough, we dig them and bring them into our seed-house for wrapping. They are enclosed (partially or fully, depending upon the kind of plant) in a polyethylene plastic film.

This polyethylene film retains moisture so that the plant doesn't dry out. At the same time, gases can pass back and forth thru the film so the plant can "breathe", as it must to live.

By wrapping our perennials in this plastic film, we can ship them to you without their drying out or smothering while on their way to you. Whether you live fifty miles away, or clear across the country, the plants reach you in just as good condition as if you took them right from our storage room.

After you receive the plants, if it is several days before you get around to planting them, don't worry. The plastic film wrapping will "hold" the plants fresh and vigorous for you. We still advise your getting the plants into the ground quickly after you receive them, but it is nice to know that if an emergency prevents it (or you just plain forget!), you still have good plants.

← Pictured at left are two perennials packed in polyethylene plastic film. The top one is an Aster plant, fully enclosed in a plastic bag. The lower one is an Iris; this plant ships better if only the roots are enclosed in the plastic film.

Henry Field's Big, Beautiful PEONIES

POSTPAID PRICES on named variety peonies, except where noted otherwise, **98c each; 3 for 2.69, postpaid.**

The Peony Society rates peonies on quality and performance, using a score ranging from 1 to 10. Rating given below after each name.

B1514—FRANCES ORTEGAT. Rated 6.7. Large, semi-rose type of dark amaranth-red. Glistening yellow stamens. Mid-season peony.

B1513—FESTIVA MAXIMA. Rated 9.3. Most popular white. Immense flowers. Has flecks of red on center petals. Very early flowering and pleasantly fragrant.

B1511—EDULIS SUPERBA. Rated 7.6. An early, big, deep pink. Strong hardy grower. One of the best of all bloomers. Very fragrant.

B3178X—A grand assortment of big, double, choice varieties of different colors. This is your chance to save because these are the varieties we grow too many of—often the most expensive ones. Unlabeled. Sent postpaid.

HARDY PHLOX

(Pictured on Opposite Page)

Fall is the best time for planting phlox. The roots get hooked into the soil and the plants are "rarin' to go" with the first breath of spring. Mulch well after (not before) ground freezes the first winter.

Phlox grow 18" to 36" high, depending upon soil. They like full sun, but do well in partial shade. The pastel pinks and blues look better in partial shade where the sun won't fade them.

Phlox bloom in July and August, and are perfectly hardy. Keep the flowers cut so the plants won't go to seed and quit blooming. The seedlings usually come a muddy magenta color and, being vigorous, crowd out your good varieties.

POSTPAID PRICES on the following 6 phlox are **49c each; 3 for 1.29:**

B1613—EVA FORESTER. Flowers of tremendous size. One of the best.

B1636—LEO SCHLAGETER. This is the largest and best crimson.

B1665—SPITFIRE. A brilliant orange-scarlet that stands out like a beacon.

B1654—PINKETTE. Brand new soft pink. Very large flowers.

B1666—STARLIGHT. A clear, rich violet with a sharply defined white star in center.

B1669—WORLD PEACE. A new and beautiful white. Flowers large, and masses of them. Probably the best of all whites.

B1550—SOLANGE. Rated 9.7. The nearly perfect peony, having one of the highest ratings of all. Huge globes of rich, creamy white suffused lightly with buff and pink. Flowers heavy, compact and full of petals. **1.25 each; 3 for 3.49, postpaid.**

B1546—ROSE FRAGRANS. Immense bomb type. Deep pink. Very fragrant. Flowers after most others are gone.

B1539—MONS. JULES ELIE. Rated 9.2. Fully double, bomb type, pale lilac-rose. Early. Fine fragrance. Occasional flowers 8 to 9 inches through; all blooms large. A fine peony.

B1537—MYRTLE GENTRY. Rated 9.6. Beautiful late soft pink. Tall growing and fragrant. Excellent cut flower. One of Brand's finest creations. Rich dark green foliage. **1.25 each; 3 for 3.49, postpaid.**

B1556—THERESE. Rated 9.8. One of the highest rated of peonies. Satiny pink changing to lilac-white in the center. Enormous flowers on strong, erect plants.

B1533—LONGFELLOW. Rated 9.0. A Minnesota variety rated one of the best. Huge,

POSTPAID PRICES on the following 6 phlox are **45c each; 3 for 1.25:**

B1655—PURPLE SWEET-HEART. A new and good deep purple.

B1653—POLKA DOT. Another new and good one. Has huge flowers.

B1662—SALMON GLOW. The very best of all salmon phlox.

B1637—LILLIAN. Soft cameo pink. One of the very best pinks.

B1605—BLUETTE. New. Large flowers never turn objectionable purple.

B1601—AFRICA. Large clusters of brightest scarlet flowers.

CREeping PHLOX

(Phlox Subulata)

Sometimes Called Moss Pink

Our picture at the left shows the different colors of Creeping Phlox as they grow in our nursery rows. You can see by this picture, as well as the one above it, how they would make perfect borders or edgings for walks, and driveways.

Creeping Phlox also are ideal bank binders where there often is a wash.

They do well in hot and rather dry location; thrive in full sun or partial shade. Have masses of moss-like foliage which stays green all winter. In spring, the low mound-like plants are covered with brightly colored flowers.

B1673—BRILLIANT RED. The new bright red.

B1674—EMERALD GEM. Emerald green foliage, deep pink flowers.

B1672—BLUE FAIRY. Reddish green foliage, soft blue flowers.

B1675—SNOW MAIDEN. Dainty cut foliage, snowflake-like pure white flowers.

KARL ROSENFELD

America's Favorite Peony for Years

B1529—Rated 8.8. Brilliant velvety crimson. Blooms mid-season. Like many of our most popular varieties, was originated many years ago—1908 in this case. Has successfully stood the test of time and continuous competition ever since. Rated as one of the best reds for cut flowers. Produces a strong, healthy growth that makes it particularly valuable as a home garden peony. Not expensive. **98c each; 3 for 2.69, postpaid.**

1.25 each; 3 for 3.49, postpaid.

IMPORTANT PLANTING TIP

Plant the peony roots so that the little pink buds are exactly 2" below ground level—no more, no less. This is important. Then mound the ground up over the top 4 to 6" for the winter.

PURPLE BELLFLOWER

CHRYSANTHEMUMS

Chrysanthemums are among the best of all perennials, being easy to grow, hardy, free-blooming, colorful and beautiful. Normally bloom from early September until severe frost. Be sure to mulch well the first winter.

POSTPAID PRICES, 69c each; 3 for 1.89, postpaid, except where noted otherwise.

B1408—DOROTHY ALLFREY. Huge double flowers of amber-bronze on a perfectly shaped plant of rich, broad, dark green foliage. Pinch off a few side buds and the main flower on the stem will get 6" wide—like a football mum. **79c each; 3 for 2.10, postpaid.**

B1419—FUCHSIA FAIRY. A mass of 1" flat, fully double, fuchsia-

colored flowers. This little mum makes a plant 2 feet across and about as high, that is literally loaded down with blooms. **59c each; 3 for 1.59, postpaid.**

B1449—RED FLARE. Immense, broad petalled flowers of rich bright red with a yellow reverse on the petals, giving the flower a distinct two-tone effect. Flowers normally 4 to 5 inches across but can be made larger by a little disbudding. **79c each; 3 for 2.10, ppd.**

B1436—DOREEN MONTE. A brilliant rose pink, with broad, richly colored petals that curve in and make a most beautiful flower. This tall variety is excellent for cutting and, like the others of this group, will easily make 6-inch blossoms if disbudded some. **79c each; 3 for 2.10, ppd.**

B1443—PINK OPAL (Kraus). A gorgeous mum of pale Persian-rose overlaid with cream tints. Large, fully double flowers measuring as much as 4" across. A beautiful mum.

B1427—HUNTSMAN (Bristol). One of the most brilliant mums we grow. Fiery red flowers about 2½ to 3". Solid double. Fine long stems for cutting.

B1418—GOLDEN SUNSET. A marvelous variety with huge 4" fully double flowers of burnished copper with a ruby-red center. Rather low, very bushy, and completely covered with flowers.

B1461—TAPESTRY (Bristol). A new combination of gorgeous shading. Opens gleaming rich pink, slowly softening to ashes-of-roses with golden flush. Flowers fully double and 3" across.

B1470—WHITE CLOUD. Large 3" blooms of pure white with a center of palest lemon-yellow. Petals broad and attractive. Plants grow 2' tall. We have tested many white

mums and, without question, this is the best one we have ever seen.

B1441—LIMELIGHT (De Petris). A solid white 2½" pompon with a soft green cast. Flowers fully double and excellent in substance and form. Prolific bloomer. Because of its unusual coloring, this mum can be used with striking effect as a cut flower; also the stems are long, clean, and straight, and the foliage is beautiful. **79c each; 3 for 2.10.**

B1429—LEE POWELL (Kraus). Another new mum. Huge 4½" flowers like great masses of fluffy Chinese-yellow down. Stems long and fine for cutting. Good grower.

B1452—SCARLET CRIMSON (not pictured). Fine, large, double crimson, bordering on scarlet. One of the best of its color. Fully double flowers are 3 inches across and borne in great numbers on a medium-high bushy plant.

CUSHION MUMS

(pictured at left)

Grow in Huge Mounds of Thousands of Blooms All Bloom First Year

Cushion Mums bloom the first year after planting, and grow to a size 3 feet across and 2 feet high, with flowers so solid and thick that no foliage shows. A single plant often has a thousand blooms on at one time—so many you never miss a dozen blossoms cut daily for the table.

They are hardy, long-lived, and easy to grow. Bloom in the fall.

POSTPAID PRICES on Cushion Mums: 45c each; 3 for 1.19.

B1413—PURPLE CUSHION (Mischief). A new and showy variety with an unusual color, being a brilliant royal purple.

B1415—WHITE CUSHION. Pure white. Delightful alone and very useful to accent other colors.

B1411—BRONZE CUSHION. The best double bronze. Early blooming.

B1412—PINK CUSHION (Major Cushion). The clear pink that blooms early in the fall.

If you have never planted lilies in the fall, we urge you to do so. You probably know, of course, that the Madonna lily should be planted in the fall only, but you will find that all lilies are particularly well adapted to fall planting. Just plant them in the usual way but, if you live where the ground freezes, mulch with 2 inches of coarse straw after the ground is frozen, particularly the first winter.

We have assembled here for you what we sincerely believe are the world's best lilies. Some are the old familiar favorites but some are new ones that will amaze both you and your friends with their great beauty.

CORAL LILY

B5005—(Tenuifolium). The most brilliantly colored lily. A narrow-leaved, slender-growing plant from Siberia. Many flowers of deep scarlet, waxy and recurved, on each plant. Grows in poorest soil. Plant 4 to 6" deep. **39¢ each; 3 for 98¢; 5 for 1.39, postpaid.**

FLAME LILY

B5011—(Red Russian). One of the easiest of all garden lilies to grow. Makes large clusters of blooms on plant which grows two to three feet high. Plant 6 to 8" deep. **45¢ each; 3 for 1.19, postpaid.**

New CENTIFOLIUM HYBRID LILY 50 or More Flowers per Plant

B5004—These are magnificent pure white hybrid lilies from the West Coast, perfected after over 15 years of hybridizing. They are the result of crossing of a half dozen or more lilies, and they far outshine the Regal Lily in every respect. After several years of growth, they reach a height of 6 to 8 feet with great clusters of 50 or more blossoms crowning the top.

The flowers are shaped like broad, flaring trumpets, and are pure white inside. The reverse of the petals are often pink, emerald green, or brown, making some striking contrast in color.

These lilies are exceedingly hardy, growing and bloom-

ing beautifully outdoors. Because of their deep root system, they stand severe drought well. Plant 6" deep. **59¢ each; 3 for 1.49, postpaid.**

CASCADE HYBRID MADONNA

B5016—Has tremendous vigor. Surpasses all other Madonnas in height of stalk and size of flower. Has great resistance to lily disease botrytis. Plant not over 2 to 3" deep. **59¢ each; 3 for 1.49; 6 for 2.79, postpaid.**

REGAL LILY

B5027—America's favorite hardy lily. Has large, pure white flowers tinged lightly with lilac outside and yellow inside. 10 or more blooms per stem. Plant 7 to 8" deep. **39¢ each; 3 for 98¢; 5 for 1.39, postpaid.**

RAINBOW HYBRID LILIES

B5025—These are big, brilliantly-colored, new hybrids from the West Coast. Not only are they gorgeous but, since they have a lot of umbellatum, or Flame Lily, parentage, they are one of the most fool-proof, absolutely hardy lilies we know of. They grow anywhere.

Colors run from palest straw yellow to deepest gold with lots of maroons and deep reds—and sometimes with all these colors in one blossom. Long, tall stems. **59¢ each; 3 for 1.49, postpaid.**

PINK SHOW LILY

B5030—(Speciosum Rubrum). Flowers 4 inches across are carmine red on a white background with crimson spots. A very hardy plant that blooms profusely. Plant 7 to 8" deep. **65¢ each; 3 for 1.79, postpaid.**

HARDY LILIES

3 NEW PACIFIC NORTHWEST HYBRID LILIES

The Corsage Lilies—as Beautiful and Lasting as Orchids

These lilies are from a group resulting from more than 15 years of skillful, patient crossing by Mr. Carleton Yerex in the Pacific Northwest. They are perfectly hardy and as easily grown as any other plant. Some grow stems higher than your head, topped by great clumps of magnificent, beautiful blooms.

They are without question the most beautiful lilies in the world today.

PINK TRUMPET AURELIAN HYBRID

B5020—Not only one of the most beautiful of the new Yerex hybrids, but a hardy plant and a vigorous grower. To avoid sun-fading of flowers, it is best to plant Pink Trumpet in partial shade, or to protect at time of blooming. Plant 6" deep. **2.75 each, postpaid.**

AURELIAN HYBRIDS

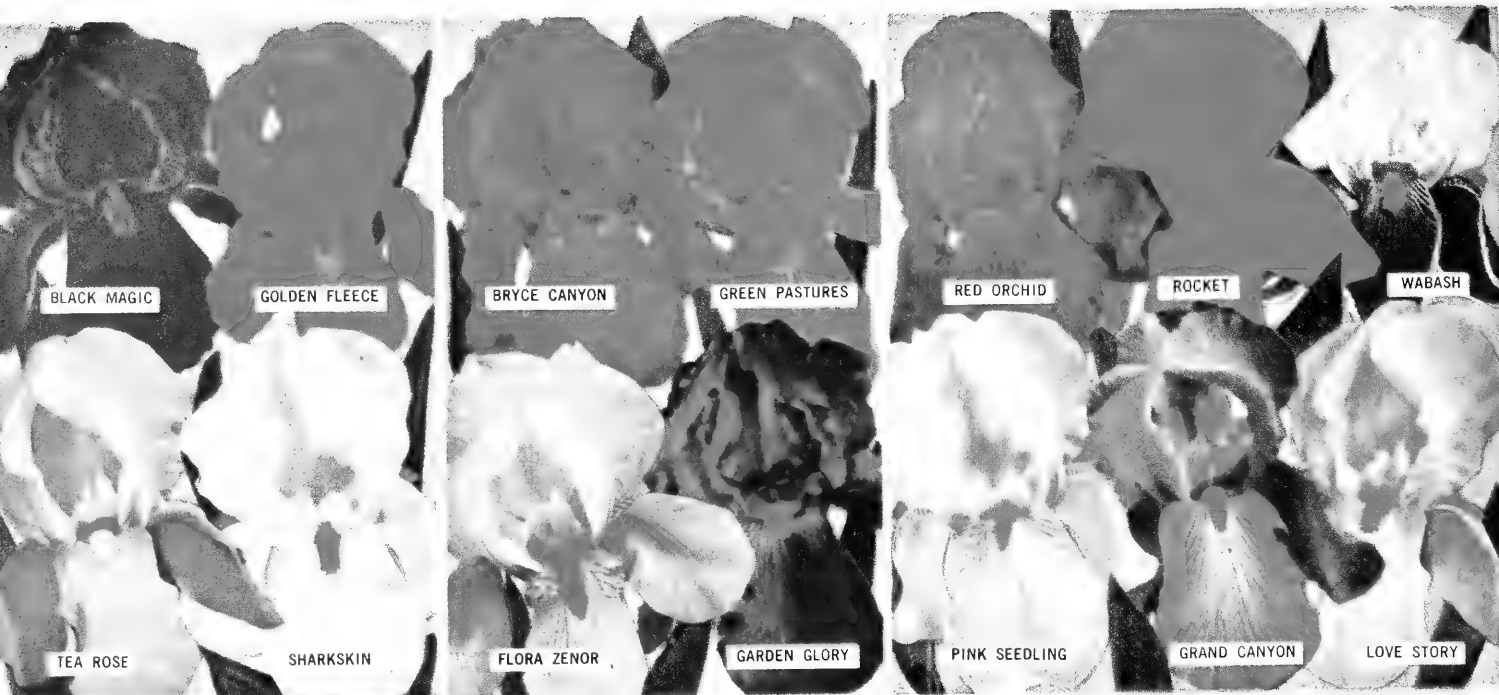

B5000—Wide, flaring reflex trumpet lilies in beautiful combinations of colors, including gorgeous sunburst effects. Flowers are 4" to 5" or more across and, as the plants grow older, form magnificent clumps of beautiful flowers. **1.39 each; 3 for 3.75, postpaid.**

YELLOW TRUMPET AURELIAN HYBRID

B5037—From same seedling strain as spike of blooms that won Griffith Cup and Sweepstakes Award in 1950, and Award of Merit in 1951, at National Lily Show. Like Regal Lily but has stronger stems, larger trumpets of clear yellow. **2.00 each; 3 for 5.98, postpaid.**

NEW LILIES COLLECTION

B3471X—Top size bulbs of the scarce, new hybrids. Only a few firms have them; you can't duplicate this price anywhere. 1 Yellow Trumpet, 1 Pink Trumpet, and 1 Aurelian Hybrid—all 3 for **5.59, postpaid.**

B3108X—1 each of above 4 for 2.29, ppd.

B3109X—1 each of above 4 for 3.19, ppd.

RAINBOW COLLECTION of 12 BEAUTIFUL IRIS only \$1.98 POST PAID No. B3117X

This collection is made up of varieties we are "long" on (more often than not they are the most expensive ones), so you get a bargain collection of every color of the rainbow and we balance our inventory. It is a good deal both ways.

These are not seconds or culls or damaged roots. They are the regular high grade ones just as listed individually right on these pages. Come right out of the same fields at the same time. This is a good, honest, old-fashioned type Henry Field bargain. Supply limited.

Again this year we have a list of outstanding varieties of Oriental Poppies—and very reasonably priced. Check any other catalog and see for yourself.

The following varieties are pictured at the left:

B1721—RASPBERRY QUEEN. **85c each; 3 for 2.29, ppd.**

B1707—GLOWING EMBER. **79c each; 3 for 1.98, ppd.**

B1735—WHITE KING. **85c each; 3 for 2.29, ppd.**

B1703—BIG JIM. **79c each; 3 for 1.98, ppd.**

B1708—GOLD OF OPHIR. **79c each; 3 for 1.98, ppd.**

B1700—CARNIVAL. **1.25 each; 3 for 3.25, ppd.**

Buy the World's Top Iris at a Saving

The Iris listed here are among the country's finest. (See envelope in which this catalog came for very finest of all varieties.) Some are Dykes Medal Winners; many are included in the American Iris Society's list of "100 Most Popular Iris for 1955". Yet they are low priced—from **49c up to**

\$2.00 and \$3.00. Higher priced Iris are not necessarily better; just more scarce for the time being.

Iris should be mulched the first winter to prevent heaving by frost.

Henry Field's RED and PINK IRIS

The following are pictured on the opposite page:

B1386—RED ORCHID. Best red Iris we have ever seen. **69c each; 3 for 1.69.**

B1345—GARDEN MAGIC. Color is deep and velvety. **69c each; 3 for 1.69.**

B1341—FLORA ZENOR. Pink, like foam on a strawberry soda. **49c each; 3 for 1.19.**

B1344—GARDEN GLORY. Pure rich velvety ruby and one of the nearest to true red. **98c each; 3 for 2.49.**

B1395—TEA ROSE. Deep shade of mallow pink with a gleaming coppery shading. **69c each; 3 for 1.69.**

B1328—CARAVAN (Tompkins 1949). Very large ox-blood red with bright undertone of copper. **98c each; 3 for 2.49.**

B1362—LOVE STORY. One of the very best of the shell, or flamingo, pinks. **2.98 each; 3 for 7.50.**

The following varieties are not pictured only because of lack of space:

B1387—RED GLEAM. A brilliant, velvety red with chestnut cast. **75c each; 3 for 1.79.**

B1393—RED TORCH. Rich gold standards and velvety falls of real red. One of the Sass' very fine Iris. **75c each; 3 for 1.79.**

B1380—PINK CAMEO. One of the finest of the famous flamingo pinks. **98c each; 3 for 2.49.**

B1381—PINK LACE. Clear smooth shell pink. Re-blooms in the fall. **98c each; 3 for 2.49.**

Sensational Offer of New Red Bearded Pink Iris Seedlings

These are sister seedlings of Mr. Chester Tompkins' beautiful "Apricot Supreme" which won a Certificate of High Commendation from the American Iris Society. Some are light pink, some dark pink. Some come in apricot shades, others in orchid-pink shades. All have bright red beards. Among these seedlings are crosses involving all the fine new pinks from Hall, Loomis, Sass, etc., that are worth many times more than the price we are asking for the plants. One is pictured on opposite page.

Supply limited. Sold on first come-first served basis. No. **B1384—1.00 each; 3 for 2.25.**

RED & PINK BARGAIN

B3074X—Choice assorted Iris of the finest red and pink shades. All named varieties, but not labeled. This is a real bargain. 10 for only 1.89, postpaid.

4 FINEST RED and PINK IRIS

RAINBOW IRIS

The following 7 varieties are pictured and priced on the envelope in which this catalog came to you:

Sable	Ola Kala
Blue Rhythm	Snow Flurry
Elmohr	Lady Mohr
Blue Shimmer	

The following varieties are pictured on the opposite page:

B1274—ROCKET. In our opinion, the most brilliant of all Iris. Standards deepest, glowing, chrome-yellow. Falls bright true orange almost to edge. **98c each; 3 for 2.49.**

B1226—BRYCE CANYON. A rich, warm, henna-coppery brown. Really outstanding. **98c each; 3 for 2.49.**

B1244—GOLDEN FLEECE. Standards clear lemon yellow, falls creamy and edged with a broad band of yellow. Frilled and ruffled. Award of Merit 1942. **75c each; 3 for 1.79.**

B1242—GRAND CANYON. Difficult to describe (see picture on opposite page). A beautiful mixture of rich colors. Well named. **69c each; 3 for 1.69.**

B1288—WABASH. An old variety but still one of the very finest of all Iris. **49c each; 3 for 1.29.**

B1277—SHARKSKIN. Flowers stylishly tailored and finished in a pure silken white. Award of Merit in 1946. **75c each; 3 for 1.79.**

B1243—GREEN PASTURES. An unusual shade of chartreuse yellow with a touch of blue at the beard. **1.49 each; 3 for 3.98.**

B1247—GOLD SOVEREIGN. The deepest, most intense yellow that we know of in Iris. The brilliance of this variety is outstanding. **1.98 each; 3 for 4.98.**

B1283—TIP TOP. Solid wine-purple standards and enamel white falls, each surrounded by a broad band of the same bright wine-purple stitching. **98c each; 3 for 2.49.**

B1275—RODEO. A beauty. Standards of bright gold with flaring falls of softer yellow edged with gold. Brown markings. **1.25 each; 3 for 2.98.**

The following varieties are not pictured only because of lack of space:

B1221—ARAB CHIEF. Brilliant and attractive rich, burnt orange—almost henna. An intense color. **98c each; 3 for 2.49.**

B1265—PAINTED DESERT. A gorgeous combination of soft buffs, yellows, violets and tans. **69c; 3 for 1.69.**

Henry Field's Finest

HOUSE PLANTS

DOUBLE "Rose Bud" BEGONIAS

These are not ordinary begonias. The plants grow round and solid, with many clusters of small, double flowers that look just like little rose buds. Easy to grow, and very beautiful. Wonderful indoor plants and ideal outdoors in summer in semi-shaded spots, and in window and porch boxes, because they bloom profusely and almost constantly.

N225—CARMINE QUEEN. A brand new named variety with very large "rose buds" that open into full-blown, double, deep pink flowers. Leaves are an attractive coppery red. Flowers most of the time. **98c each; 3 for 2.69.**

N224—REDDY. Brand new, and sold only by Henry Field's. Rich green leaves; dainty buds burst into huge, glowing flowers. Shipped out of 2 1/4" pots. **98c each; 3 for 2.69.**

BRILLIANT FOLIAGE PLANTS

N770X—(not pictured). Includes best of Coleus, Joseph's Coat and Purple Velvet Plant. 7 plants (all different) for **98c**. 2 collections, 14 plants, for **1.89**.

GARDENIA "Mystery"

N295—Easily grown outdoors in the south, but everyone likes to try growing them indoors. Some succeed, some don't; it depends upon conditions. Has huge, white, double, very fragrant blooms. Grow them at room temperature. Plant outside in summer, right in the sun. Water well. **98c each; 3 for 2.69.**

REGULAR GERANIUMS

N340—DOUBLE FLOWERED IMPROVED RICKARD (pictured on opposite page). A fine, everblooming Geranium of bright red flowers.

N342—SNOWBALL. White flowers.

N345—PINK PHENOMENAL. Flowers clear rich pink.

N343—SALMON FIAT. Clusters of clear salmon flowers.

POSTPAID PRICES: 49c each; 3 for 1.39.

N663X—1 each of above Geraniums—all 4 for only **1.69**.

N226—BO-NIGRA. Remains small and neat with a bushy, many-leaved growth. The coloring is rich, dark, black-green with frequent irregular markings of bright green or chartreuse green. Undersides of leaves are red with green markings. **1.50 each.**

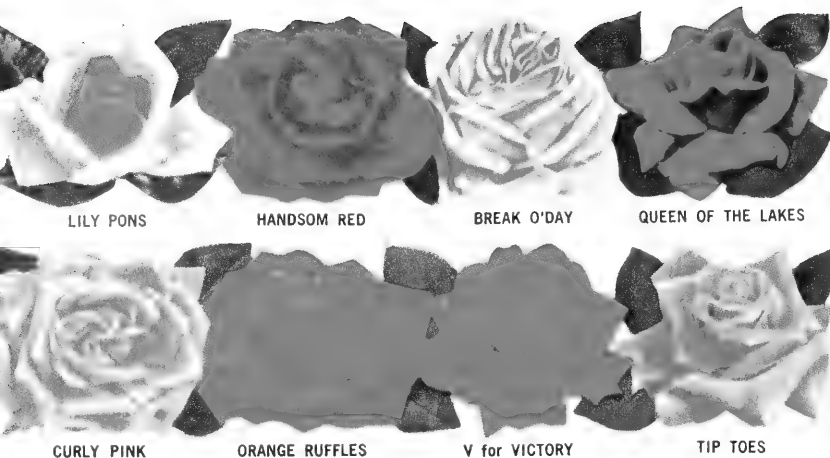

COLLECTION OF RARE BEGONIAS

N846X—1 each of Joe Hayden, White Calla and Bo-Nigra—all 3 for only **3.39**.

ALL HOUSE PLANTS SHIPPED POSTPAID

We grow house plants in 2 1/4" clay pots and, before shipment, repot them in paper pots (the clay pots might break). They next are put into polyethylene plastic film bags and then into especially designed shipping containers. This gets the house plants to you greenhouse fresh.

Super Hardy BROWNELL HYBRID TEA ROSES

Stand 25° Below Without Killing Out

The "HENRY FIELD" Rose

A1025—This is the patented, super-hardy Brownell Hybrid Tea Rose named as a memorial to Henry Field. You know, of course, that we would not have given Henry Field's name to a rose unless it was outstanding. It is big, bright red, and beautiful. A good grower and a prolific bloomer. **2.00 each, postpaid.**

Brownell patented Hybrid Tea Roses withstand adverse conditions, particularly cold weather, far better than ordinary Hybrid Teas. Yet they have long-lasting flowers of beautiful form and color and lots of them on long stems. That's why they are becoming more popular every year.

A1013—LILY PONS. White with yellow center.

A1007—HANDSOM RED. A big, beautiful scarlet rose with a velvety sheen. No printed picture can do it

justice. We are so confident that you will be enthused about it that we will refund your payment for the first bush purchased of us if you do not agree, and you may keep that plant. **3.00 each, postpaid.**

A1001—BREAK O'DAY. Large, double and vigorous.

A1016—QUEEN OF THE LAKES. Beautiful buds on long stems.

A1002—CURLY PINK. Matchless in size, form, beauty of flower.

A1011—ORANGE RUFFLES. Clear orange! Rich deep green foliage.

A1021—V FOR VICTORY. Large double; fragrant.

A1020—TIP TOES. Long, pointed buds and beautifully shaped flowers.

Floribundas, being so vigorous, are good with shrubs; they give the shrub border color all summer long.

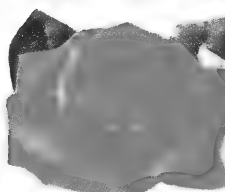

Plant Now for Better Roses Next Spring!

You can have better roses next spring if you plant them this fall. The fall planted roses do not make any top growth during the fall and winter, but they do get a running start next spring because they already are in the ground to take advantage of melting snow and early spring rains. They get a good root growth before hot weather hits.

IMPORTANT: Before we ship roses to you, we pre-prune them to about 12".

Plant in the usual way and then mound dirt over all but the tips of the stems. Remove this mound of dirt gently next spring when the buds start swelling, and then prune the stems back to about 8".

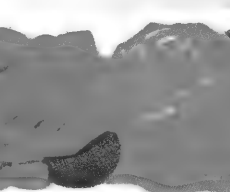

WHEN WE SHIP ROSES IN FALL: We usually ship rose plants in late October after they have become dormant in our fields so we can dig them.

Henry Field's CLIMBING ROSES

For Great Masses of Blooms and Sheer Beauty

A1096—WHITE DAWN. The beautiful white counterpart of New Dawn. The finest everblooming white climbing rose. Hundreds of pure white, completely double, gardenia-like blooms on long stems. A fine new origination from the University of Minnesota. **1.75 each; 3 for 5.00, postpaid.**

A1079—PROSPERITY. Blooms first year planted. A strong, free-growing plant. **1.10 each; 3 for 3.15; 12 for 11.40, postpaid.**

A1077—PRIMROSE. A hardy climber with large, double canary-yellow flowers and shiny, deep green leaves. **1.10 each; 3 for 3.15; 6 for 5.98; 12 for 11.40, postpaid.**

A1053—CORAL DAWN (Patent 1117). A brand new everblooming climber of a rich, sparkling deep coral-pink coloring. This is the first time that this popular color has been available in a climber. Has dainty, pointed buds which open up to double, 4½-inch blooms. Lustrous, dark green foliage—very disease resistant and a fine background for the huge coral-pink blooms. Does well in all regions. **2.50 each; 3 for 6.60, postpaid.**

A1056—PATENTED CLIMBER "BLAZE". Has flowers the same brilliant red as Paul's Scarlet but blooms both fall and spring. **1.25 each; 3 for 3.49, postpaid.**

A1074—NEW DAWN. The first everblooming climbing rose. No other climber produces flowers so constantly from spring until frost. The blooms are a large, double, apple-blossom pink borne on long stems. Fine for cutting. Also very fragrant. **1.25 each; 3 for 3.49, postpaid.**

A1078—PAUL'S SCARLET. World's most popular climbing rose; is planted more than all other varieties combined. **1.10 each; 3 for 3.15; 6 for 5.98; 12 for 11.40, postpaid.**

Beautiful RED and GOLD Combination

A2215X—1 Paul's Scarlet and 1 Primrose—a beautiful combination for a trellis or arbor. Both fine 2-year-old plants for only 1.98, postpaid.

Everblooming POLYANTHUS

The Hardy, Bushy Baby Rose

Polyanthus rose bushes are covered with hundreds of blooms all summer long until freezing. They are harder than the hybrid teas, and wonderful for masses of color in beds, for borders and hedges. The best plant of all for a cemetery.

POSTPAID PRICES

	Per	Per	Per
Each	3	6	12
	1.10	3.15	5.98 11.40

A1308—GOLDEN SALMON. A vivid salmon. Very heavy blooming.

A1337—EUTIN. Glowing carmine-red. Up to 125 semi-double blossoms in one cluster. Showiest plant in our whole rose field.

A1312—IDEAL. Blooms so profusely it hides the leaves. Popular for filling stations, beds and cemeteries.

A1303—CATHERINE ZIEMET. Sorry we didn't have room to picture this one because it is very pretty, with dainty little double white roses and fine cut foliage.

SHRUB ROSES So Easy to Grow

Shrub Roses are ideal for hedges, borders, around the foundations. They are tough, yet beautiful, hardy and bloom profusely even in poor soil.

POSTPAID PRICES

	Per	Per	Per
Each	3	6	12
	1.15	3.36	6.49 11.98

A1321—PINK GROOTEN-DORST. Grows 4 to 5 feet high and about as wide. Has a

delightfully spicy carnation fragrance.

A1320—HARRISON'S YELLOW. A grand old rose; best yellow shrub rose of all. Semidouble, sweet scented. Lives for years.

A1319—F. J. GROOTEN-DORST. Grows 4 to 5 feet high and stays loaded all summer with large clusters of bright red carnation-like flowers. One of the best of the shrub roses.

Hybrid French LILACS

Hybrid French Lilacs often start blooming the first year after planting. They are extremely fragrant, have larger blooms, and bloom earlier in the season.

★ SHRUBS

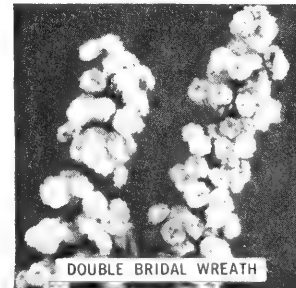

Unless otherwise noted, all shrubs are 12 to 18" size, pre-pruned back to about 10 to 12" before shipping.

You get an extra six-months' growth by planting shrubs in the fall. Just mound up dirt a foot or higher right over plants first winter; pull dirt away in the spring.

WHEN WE SHIP SHRUBS: We can ship shrubs only after they lose their leaves and become dormant, usually the latter part of October. You can plant them safely up until the ground freezes solid.

DOUBLE MOCK ORANGE

DOUBLE BRIDAL WREATH

AMOOR RIVER PRIVET

HARDY HEDGES

Hedges get a real start when fall planted. Mound the earth around these plants about 8 inches high. Before shipping the plants to you, we prune them partially. Do not prune them any more when you plant them this fall but, next spring, prune them severely.

AMOOR RIVER PRIVET (North)

A1618—The most popular, and one of the best, for a neat, trimmed hedge. Set 9 to 12" apart. 12 to 18" size, **12 for 1.95; 25 for 3.25, 50 for 5.98, 100 for more at 10.98 per hundred.** All postpaid.

SPIREA VAN HOUTTE Bridal Wreath

A1623—The most beautiful of all untrimmed tall hedges. Makes a perfect border for the backyard, covered with lovely white flowers in early spring with graceful habit of growth. Set 1 to 2½ feet apart. 12 to 18" plants, **12 for 2.46; 25 for 4.89; 50 for 8.98; 100 for 16.50, postpaid.**

BARBERRY

A1625—Rich green foliage, dense habit of growth, beautiful red coloring and red berries in fall, plus extra hardiness, make this an ideal hedge. Makes a very good 3-foot hedge, even without trimming. Set 12 to 18" apart. 12 to 18" size plants, branched, **12 for 2.79; 25 for 5.49; 50 for 9.98; 100 for 18.00, postpaid.**

ROSA MULTIFLORA

A1624—Trim it hedge shaped or let it grow as a broad fence. Dense, thorny barrier that stops traffic across your yard or garden, or in the field holds all livestock except occasional breachy sow. Has clusters of small white flowers followed by masses of red berries. Fine for birds and small game refuge, pasture divider, snow stop, fire break, erosion control. Does not sucker and spread. We don't ship the darned needle size, but a top grade of 12 to 18 in. size, **12 for 1.45; 25 for 2.49; 50 for 4.49; 100 for 7.98, postpaid. 1,000 for 69.95, express not prepaid.**

Hardy VINES ★

PURPLE WISTARIA

A1751—Flowers in big purple clusters shaped like grapes, with long, narrow, attractive foliage. Gets more beautiful each year, and lasts for generations. This is not the common Wistaria of washed-out color; this one has "fast" color. **79c each; 2 for 1.49, ppd.**

HONEYSUCKLE

A1730—HALL'S HONEYSUCKLE. Don't overlook this if you are looking for a fine vine, or a bank covering. Beautiful foliage, fragrant white and yellow flowers all summer. **59c each; 2 for 1.08; 5 for 2.49, ppd.**

A1731—"PINK FLAME" HONEYSUCKLE. Simply covers itself with flowers rich pink on outside and bright yellow on inside. Delightfully fragrant. Almost evergreen foliage. **89c each; 2 for 1.69, ppd.**

AMERICAN BITTERSWEET VINE

A1703—Foliage is a very attractive glossy green, colored with fiery, orange-red berries in the fall. Best to have two for pollination. **49c each; 2 for 89c, ppd.**

SILVER LACE VINE

A1761—The fast grower. Grows fastest of all vines, often 25 feet in one season. Planted this fall, will cover an arbor next summer with lacy white flowers covering the vine from ground to tips. Will cover a building, wall or barn second season. **89c each; 2 for 1.69, ppd.**

CLEMATIS

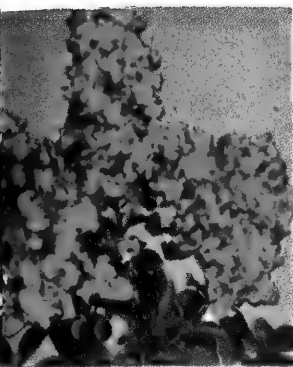

When planted around your house, large flowered Clematis always do best on the east or northeast side. The plants we send are potted. Fall is a very good time to plant Clematis. Mulch them heavily the first winter so they will not frost heave.

A1708—HYBRID CRIMSON KING. Red Clematis. Same type as Jackmani except rich red flowers. New and rare. Large flowers, long blooming. Select vines. **98c each; 2 for 1.85, ppd.**

A1707—HYBRID WHITE CLEMATIS (Anaglinosa Candida). One of the finest large-flowered Clematis. Plant with purple or red varieties for beautiful effect. **98c each; 2 for 1.85, ppd.**

A1715—HYBRID LADY BETTY BALFOUR. A wonderful new hybrid that bears bloom on current season's growth. Velvety deep blue flowers up to 4" across. **98c each; 2 for 1.85, ppd.**

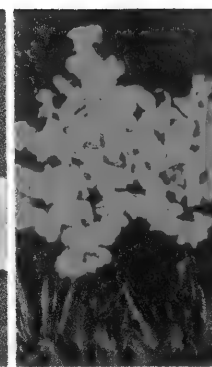

A1712—HYBRID JACKMANI. Purple Clematis. Immense flowers. Grows rapidly and blooms right away. Hardy everywhere. Lives for years. **98c each; 2 for 1.85, ppd.**

A1404—ALTHEA COELESTIS (shown in inset of picture of Althea above). A beautiful china blue single Althea. Hardier than most varieties. Outstandingly showy. 79c each; 3 for 2.19, postpaid.

RED YUCCA

(Candles of the Lord)

B2285—Tall, red, waxy spikes growing above sword-like foliage. Grows under trees. Thrives in hot, dry locations. Blooms over long period. 69c each; 2 for 1.29; 5 for 2.98, postpaid.

DOGWOOD

A4215—PINK FLOWERING. This is a hardy Dogwood (except north of Iowa) that should do well in partial shade. 2 to 3-foot size, root wrapped, 2.98 each; 2 for 5.49, postpaid.

A4216—WHITE FLOWERING. Same as above except flowers are pure white. 18 to 24" size, root wrapped, 1.69 each; 2 for 3.19, postpaid.

MAGNOLIA SOULANGEANA

A4259—Has great, pink, cup-shaped flowers. Seldom gets over 12' tall. Plant in a sheltered place. Doubtfully hardy from Iowa north. 2 to 3-foot strong, root wrapped trees, 3.50 each, postpaid.

BUTTERFLY BUSHES

Grow 4 to 6 feet tall, with spikes of flowers 12 to 24 inches long. Bloom all summer.

A1413—RED GLORY. Brand new, reddest of red. 75c each; 3 for 2.10; 12 for 7.50, postpaid.

A2352X—1 each of Red Glory, Ile De France, Pink Charming and Midnight Blue for 2.49, ppd.

IMPORTANT NOTICE

This stock can not be shipped by us until it becomes dormant—usually about the latter part of October.

All shrubs and trees excepting pecans and dogwoods are pruned by us before shipment.

Carnation Flowered DWARF POMEGRANATE

A1475—One of the prettiest, cleanest shrubs we have ever seen. Grows only 3 to 4' high. Has fresh, bronzy, green leaves and big double flowers like brilliant scarlet carnations set here and there along the stems. Bears small, showy pomegranates in fall and winter. 98c each; 3 for 2.59, postpaid.

NEW BLUE MIST SPIREA

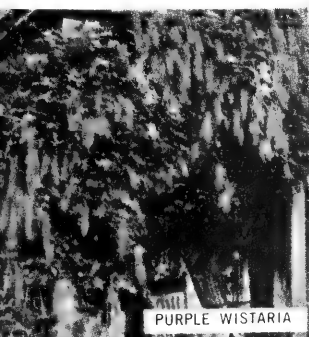

A1492—Low-growing shrub that blooms all summer and fall. Never gets over 3½ to 4' tall. Silvery green foliage and spirea-like flowers. One of very few blue-flowered shrubs. Often dies to ground in winter in Iowa and north but that won't do any harm. No 1, field-grown plants. 89c each; 3 for 2.39, postpaid.

BLUE HYDRANGEA

A1441—Very hardy. Blooms on new wood as well as old. Flowers large and, on acid soil, a beautiful blue. In ordinary soil, flowers are pink. To make flowers blue, acidify soil by adding Aluminum Sulphate. To make pink, add agricultural lime. Prefers partial shade. Needs some protection in north. Vigorous plants. 1 year, field-grown plants, 98c each; 3 for 2.79, postpaid.

EUROPEAN MOUNTAIN ASH

A4260—(not pictured). A tree that gets about 20 feet tall with foliage of a beautiful green. Light, smooth bark. A broad head, very compact, with gorgeous creamy white blossoms in spring, followed by clusters of red berries in later summer and fall. Grows rapidly. 4 to 5-foot size, 1.98 each; 2 for 3.79, postpaid.

ALMEY CRAB

NEW CRIMSON KING MAPLE

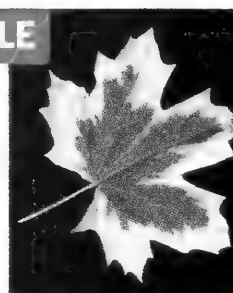

A4214—(Plant Pat. No. 735). This is a sensational new French hybrid of the crimson-leaved, hardy maple. In early spring, the young leaves are a brilliant, fiery crimson. They continue this bright color until well along in the summer, when the upper side of the leaves deepen to a rich black-red tinted green, with under sides of green. Do not expect any red leaf maple to keep its brilliant springtime red throughout the summer; it won't. But Crimson King is the reddest of all red maples, including Schwedler's. Never grows more than about 30 feet tall. 4 to 5-foot size, **4.29 each, postpaid.**

HARLEQUIN MAPLE

The New Variegated-Leaved Maple

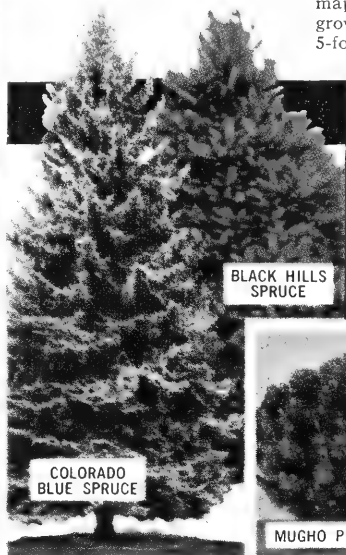

A4262—Harlequin is a Norway Maple with a variegated leaf. It will do well anywhere ordinary Norway Maples will. It is round-headed, attaining the maximum height of about 30 feet. A wonderful street tree because it doesn't get too tall.

A few years ago, after hearing of this tree on the west coast, we had a few shipped in and planted one in our show grounds. Visitors marvelled at it, and most of them said it was the world's most beautiful shade tree. **Strong trees, 4 to 5-foot size, 4.29, postpaid.**

RED BUD—First Spring Bloomer

A4281—The first spring bloomer. A beautiful sight with leafless branches packed tight with rosy-red blooms. Leaves are big, heart-shaped, and dark green. Doesn't grow large, so plant where you want a pretty shade tree that takes little room. 2 to 3-foot size, **98c each; 2 for 1.89. 3 to 4-foot, 1.49 each; 2 for 2.69, postpaid.**

IN17—HEMLOCK. The graceful upright that does well in full sun or partial shade. Can be sheared. 12 to 18" size, **2.00 each; 3 for 4.90, ppd.**

Henry Field's
NEW HARDY

HYBRID ELM

Fastest Growing Tree in the Temperate Zone

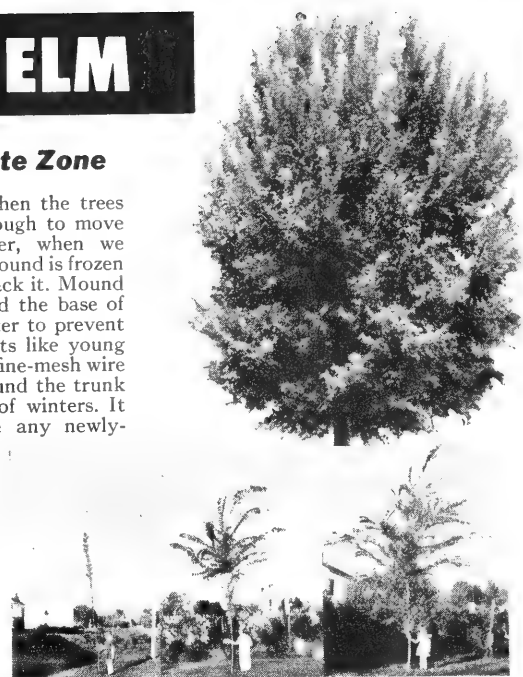

A4234—This amazing new tree is a cross of the American Elm and the Chinese Elm. It combines the permanence and beauty of the American Elm with the rapid growth of the Chinese Elm. And what is most amazing of all, it apparently is immune to Dutch Elm disease. And even though it is hardwooded, it grows 8 to 14 feet per year—gives you shade in a hurry.

It is extra hardy. Keeps right on growing in weather hot and cold, wet or dry. Its leaves are large and dark green, much like the foliage of the American Elm. The bark is smooth and medium grey color. The branches are straight and strong; won't break in a high wind.

NOTICE: Hybrid Elms sometimes start slowly in the spring—maybe sulk for as long as two months, then start growing like mad. It's the nature of the beast, so be patient with it. It soon will more than make it up. The best time to plant Hybrid Elms, or any other

tree, is in the fall when the trees become dormant enough to move (usually late October, when we ship), up until the ground is frozen so solid you can't crack it. Mound a pile of dirt around the base of the tree for first winter to prevent frost heaving. Rabbits like young Hybrid Elms, so tie fine-mesh wire or heavy paper around the trunk for the first couple of winters. It helps also to stake any newly-planted tall tree so the wind won't rock it and loosen the roots.

Shipped express not prepaid because they are too tall to ship parcel post. 4 to 5-foot size, **2.98 each; 2 for 5.79. 5 to 6-foot, 3.29 each; 2 for 6.39. 6 to 8-foot, 3.89 each; 2 for 7.19.**

At Planting 1 Year Later 2 Years Later

Susan was 3 when the Hybrid Elm was planted in her back yard. By the time she was 5, the Spirea hedge in the background was hiding the picket fence, and the Elm was over 25 feet tall!

Genuine Siberian Strain CHINESE ELM

Our seed originally came from Siberia where only the hardest trees survive. Stand extreme cold or heat, or drought, and do well in poor soil. Thrive anywhere.

They are fast growing—8 to 10 feet per year. Give shade or hedge or windbreak quickly, but live a long time. Many trees now are 200 years old.

Fall Planted Fruit GAINS 6-MONTH'S START

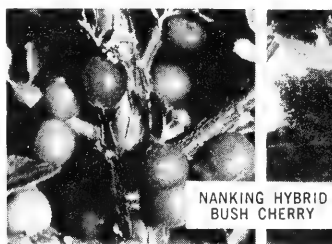

Any fruit listed here can be planted this fall. Just leave a mound of dirt around the base of the tree until spring to prevent heaving from alternate freezing and thawing.

In very cold climates, bury the stock by laying it in a trench, tops and all, and mound dirt over the trench to shed water. When dug for planting the following spring, the stock will be in a beautifully fresh condition.

WHEN WE SHIP FRUIT TREES: Remember, it often is the last of October before fruit trees in our nursery rows become dormant enough to dig and ship to you. So don't expect delivery before that time. Actually, you should not plant them sooner than that, and you can plant them successfully even when it is quite cold—any time up until the ground freezes too deep to open up.

Henry Field's DELUXE GRADE Fruit Trees

Faster Growing—Better Shaped—Quicker Bearing

Henry Field's De Luxe Grade of fruit trees is better for these reasons:

You get well-branched, heavy-rooted, straight-trunked, jumbo size trees.

Roots of trees are special wrapped in heavy kraft paper to prevent damage and then the whole plant is enclosed in polyethylene plastic film.

Properly pruned by our experts before being shipped to you. This is important.

Proper planting depth is indicated on trunk of tree, thus preventing most common cause of poor growth of newly planted trees.

Complete directions given on best way to handle the tree.

All in all, it means you get the best of the biggest, quickest bearing fruit trees.

Jumbo Size But Postpaid To Your Door

While we select the thickest, tallest, straightest trees for our De Luxe Grade, we ship them prepaid to your door. This is because we pre-prune them.

If we did not prune them, they would be too big to go via parcel post and have to be shipped via express, which costs at least \$1.86 minimum charge. You save all of that because we ship via parcel post prepaid and, in addition, you get a tree expertly pruned.

- 1 Big, jumbo-size, selected trees.
- 2 Points at which your tree will be pruned by us before shipment.
- 3 Tag gives complete, detailed planting instructions.
- 4 Proper planting depth marked with white tape.
- 5 Roots wrapped in heavy kraft paper to prevent damage; whole tree then wrapped in polyethylene plastic film, as pictured below.

De Luxe Trees Guaranteed to Live

We are so confident that you will not lose one of these De Luxe Grade trees that we will replace it absolutely free if it is not in vigorous growing condition one year from date you receive it, provided you plant it within 48 hours after receiving it, water and care for it properly, and so state in your letter should you report loss. Of course we are not liable for damage from drought, flood, mice and rabbits.

Whole Tree Wrapped in Polyethylene Plastic Film

This method of wrapping nursery stock is the result of 3 years of research by the Iowa State College. This magic-like film keeps the tree from drying out, yet allows it to "breathe", as it must to live. Extensive tests have proved trees so wrapped do better for you.

DELCON DWARF APPLE TREE
The Perfect Back Yard Tree for only 1.89

Originated by the Missouri State Experiment Station at Mountain

Hardy Apple Collection

A2669X—1 each of Wealthy, Anoka, Yellow Transparent and McIntosh, 4 to 5-foot size—all 4 for only 4.49, postpaid. All season ripening—all colors.

Grove, Mo. Parentage is Ben Davis, Jonathan and Delicious.

Some dwarf apple trees are made by multigrafting, a complicated process which is more expensive and, when you end up, you don't have much of a tree. And such trees have to sell for five or six dollars. But Delcon is a single graft, a true dwarf tree (for easy picking) with full-sized apples, and we sell it for only **1.89, postpaid.**

The fruit is fine grained, juicy, and has some of the flavor of both Delicious and Jonathan. It produces heavily at an early age, seldom needs thinning, ripens about ten days before Delicious, and keeps well in storage.

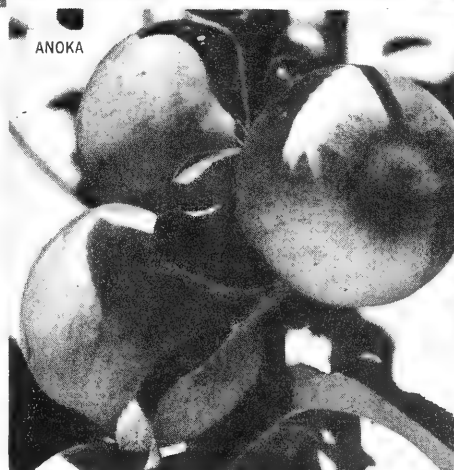

A3015—3 to 4-foot size, **1.89 each; 3 for 5.39, postpaid.** **4 to 5-foot size, 2.19 each; 3 for 6.56, postpaid.**

How Henry Field's Give You Better

We now are able to ship you fine dormant strawberry plants for fall planting on any date you want them after Sept. 1. Just write the date on your order.

Until a few years ago, we always had trouble with fall dug strawberry plants because they were too small, and could not be dug until very late in the season—too late for planting in many localities.

Now, however, we dig the strawberry plants while they are dormant in the spring and immediately put them into cold storage, where they keep dormant and in perfect condition until fall.

Upon being planted in the fall, these plants start to grow with almost unbelievable rapidity, as

though they were trying to make up for lost time. Often several green leaves appear on each plant within two or three days after planting. (Remember that the plants reaching you are absolutely dormant, with most of the leaves brown, just as in early spring, so don't become alarmed at their appearance.)

This is a great step forward in the handling of strawberry plants because it makes fall planting of strawberries worthwhile and practical.

Be Sure to Mulch Strawberries

When you fall plant strawberries, be sure to winter mulch them with 3 to 4 inches of coarse

litter (rye straw, pine boughs, etc.). Do this at freezing time. This keeps the alternate freezing and thawing from heaving out the young plants.

Now—Field's Offer Strawberry Plants Indexed U.S.D.A. Virus Free

All of the June Bearing strawberry plants offered you here have been field grown for us from virus free, foundation stock furnished by the United States Department of Agriculture of Beltsville, Maryland.

Everbearing strawberries are not yet indexed U. S. D. A. virus free, but ours are grown with the same selection methods and with the same care as the June Bearers, so we feel sure they are practically virus free too. As soon as the U. S. D. A. completes its indexing of the everbearing varieties, we will have them to offer and will so note in our catalog.

JUNE BEARING STRAWBERRIES (All Indexed U. S. D. A. Virus Free)

Here's Why Strawberry Plants Packed in Polyethylene Film are Better

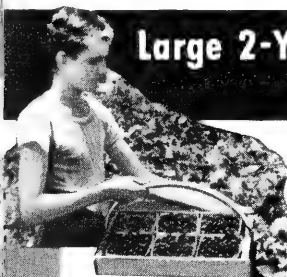

The strawberry plants which Henry Field's ship to you are packed in a polyethylene plastic bag, as pictured here. This method of packing gets the plants to you in perfect condition because the plastic bag does these two things: first, it retains the natural moisture content of the plants—they arrive neither too wet nor too dry. Secondly, while moisture can not pass thru the film, gases can, so that the plant is allowed to "breathe" as all live plants must.

B4123—ROBINSON. This is one of the top new berries that is getting more popular every year. It has everything, being large in size, delicious in flavor, and of a bright red color. Robinson ripens right after Senator Dunlap. **25 for 1.25; 50 for 2.15; 100 for 3.25; 200 for 5.45; 500 for 11.98, postpaid.**

SURECROP COLLECTION

Large 2-YEAR TRANSPLANTED BERRY PLANTS

Bear Sooner, Make Fine Plants the FIRST YEAR

These berry plants, after growing one year in the nursery field, are dug up and replanted. Thus, when they are dug for shipping at the end of the second year, they have a heavier, more compact root growth.

We wish we could sell nothing but 2-year transplanted berry plants. They are so much more satisfactory in every way. They are larger, stronger, heavier rooted, and the danger of losing them in planting is greatly reduced. They'll even bear a few berries the first year. They are well worth the money, particularly for ordinary back yard planting, because they require very little care to get them established.

Supply not too large so, if and when we run out, we will ship twice the number in a smaller size.

Field's HARDY RASPBERRIES

RED RASPBERRIES

A2075—INDIAN SUMMER. High quality, early bearing. Heavy yielder (two crops year), very hardy. Has high disease resistance. **6 for 1.55; 12 for 2.79; 25 for 5.25; 100 for 17.98, postpaid.**

A2078—LATHAM. Giant in size, and extra hardy. Berries are dark red, and firm, pick easily and ship well. Has large crops. Stands extreme cold. Fine for home use. Real money maker. **6 for 1.49; 12 for 2.65; 25 for 4.98; 100 for 16.98, postpaid.**

BLACK RASPBERRIES

A2042—CUMBERLAND. The well-known favorite. Strong, vigorous, upright-growing plants always loaded with berries. Berries are large, firm, and of fine flavor. **6 for 1.19; 12 for 2.15; 25 for 3.98; 100 for 11.98, postpaid.**

A2050—MORRISON. Larger fruit than the older strains. Better quality, disease-free plants. Bigger yields and top quality. **6 for 1.45; 12 for 2.49; 25 for 4.65; 100 for 15.98, postpaid.**

PURPLE RASPBERRIES

A2057—NEW BURGUNDY. (Patent Pending.) This is a fine new cross between red and black raspberries, a chance seedling discovered in western New York. It is proving itself outstanding both for home gardens and commercial use.

Burgundy is similar to the popular Sodus in appearance but, for the six years that it has been under trial, it has consistently given better yields of berries, and has been far more resistant to disease.

The berries are very large, rich in color and flavor, and excellent both fresh and after canning or freezing.

Burgundy has a strong, upright habit of growth, holding its large fruit high off the ground, and will grow under most any soil condition. **3 for 1.39; 6 for 2.59; 12 for 4.98; 25 for 9.48; 100 for 35.00, postpaid.**
A2056—SODUS. Cross between best red

and black varieties. Best for freezing. Fruit larger and firmer than Latham. An extremely vigorous, heavy yielder. **3 for 80c; 6 for 1.49; 12 for 2.65; 25 for 4.98; 100 for 16.98, postpaid.**

Freeze Box Bargain

A2644X—Finest for freezing; 3 Morrison Black; 3 Indian Summer Red; and 3 Sodus Purple—all for 2.19, postpaid. FREE GIFT of 2 Latham Red plants.

BOYSENBERRIES

Should not be planted north of Missouri this fall.

A2031—NEW THORNLESS. Immense dark purple berries of delicious flavor. Easy to pick because bushes are thornless. **3 for 89c; 6 for 1.45; 12 for 2.49; 25 for 4.65; 100 for 15.98, postpaid.**

BLACKBERRIES

A2003—EBONY KING. The new, improved blackberry. Guaranteed to bear heavy crop of large, luscious berries year after year. Berries are large, firm and have true, sweet blackberry flavor. Bushes strong; upright-growing. Bear one year after planting. **3 for 98c; 6 for 1.79; 12 for 3.39; 25 for 6.50, postpaid.**

New CHIPMAN'S CANADA RED RHUBARB

A1955—This new rhubarb was recently introduced from Canada. It is the best of all rhubarbs. The stalks are large and completely red from bottom to top, thru and thru. Cooking does not take its rich color but makes it more appetizing for pies and sauce. Sweetest of all. Takes less sugar. You can pull the big stalks all spring and summer and almost until fall. Practically seedless. Large No. 1 roots **98c each; 3 for 2.69, postpaid.**

A1962—OUR OWN SPECIAL "TENDER-STALK". The old-fashioned pie plant. Select, extra heavy plants. **3 for 79c; 6 for 1.32; 12 for 2.15, postpaid.**

A2520X—SPECIAL RHUBARB BARGAIN—10 of our own Tenderstalk Rhubarb, postpaid, for only 98c. (Special grade—good transplanters.)

Everbearing Strawberries

B4130—20th CENTURY. An outstanding everbearer recommended highly by the experiment stations and strawberry experts. It is superior in size, quality, and vigor to most everbearers. Makes a good plant growth that produces heavily. Has brilliant red berries of fine texture and delightfully aromatic flavor. Bears fruit within 60 days of planting and up until freezing weather. **25 for 3.50; 50 for 5.98; 100 for 9.98; 500 for 40.00, postpaid. 1000 for 60.00, express not prepaid.**

B4119—GIANT MASTODON. One of the first true everbearers introduced and still one of the

best. Berries giant size, often 2" across, and very sweet and juicy. **25 for 2.15; 50 for 3.75; 100 for 6.25; 200 for 10.98; 500 for 25.98, postpaid.**

B4122—RED RICH. (Pat. #993). An extra large, honey-sweet, high quality berry. Deep red through and through. A good freezer. Heavy yielder. **10 for 2.98; 25 for 5.00; 50 for 8.49; 100 for 14.98; 200 for 26.00; 500 for 56.50; 1000 for 97.50, ppd.**

CHIPMAN'S CANADA RED

Mary Washington ASPARAGUS

Fall is a Fine Time to Plant Asparagus

Mary Washington is the best of all asparagus. It is more tender, less stringy, and more rust proof. Giant tender stalks have a delicious flavor. Bears early in spring, year after year.

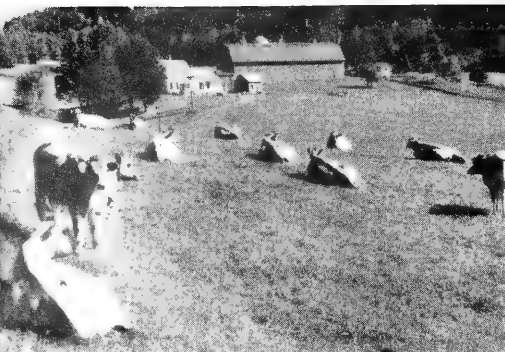

How to plant: Plant 18" apart, 5 to 6" deep, in rows 2 feet apart and in well enriched soil.

Size to plant: For quickest returns, plant our huge, 3-year Jumbo plants. They bear earlier. For a large planting, try the more economical 2-year grade.

A1905—2-year Extra Heavy. 25 for 1.39; 50 for 2.59; 100 for 4.89, postpaid.

A1906—Jumbo 3-year. 10 for 98c; 25 for 2.10; 50 for 3.49; 100 for 6.69, postpaid.

Certified Blue Tag RANGER ALFALFA

Ranger Alfalfa is fully winter-hardy; in addition, has wilt resistance that kills Alfalfa plants in many areas. Dehydrating plants prefer it, farmers and ranchers rank it tops on their list and all livestock like its fine-stemmed, leafy hay. Whatever your need, Ranger will fill the bill.

Our seed is grown from foundation seed, with Certified Blue tags attached to each sealed bushel bag. Our price is the lowest possible for high-quality, high-germination, noxious weed-free Ranger Alfalfa seed. We are proud of it and you will be, too, in results on your farm.

FALL SEEDED SWEET CLOVER

Sweet Clover can be seeded in the fall the same as in the spring. Fall seeded sweet clover is not bothered by the sweet clover weevil. Seeded in the fall, sweet clover will furnish an early spring pasture and be plowed in May to follow with corn.

BROME-ALFALFA

For the finest permanent pasture possible, sow brome and alfalfa this fall. The correct seeding rate is 12 lbs. of brome and 6 to 8 lbs. of alfalfa per acre. This seeding will carry more livestock per acre than anything you can plant and is higher in feeding value.

Freight on Field Seed Is Low in Cost

The minimum charge for shipping field seed anywhere in Iowa is \$1.61. Outside Iowa it is \$2.37.

The rate per 100 pounds to various cities is given below. If you don't live in one of these cities, you can estimate your cost by finding the rate to a city near you.

Order with Your Neighbor

You probably can make up enough of an order yourself to take advantage of the per hundred rate. If not, get a neighbor to go in with you and send in a joint order. You'll both save.

Ask Us for Quotation

If you are in doubt, write us and we will quote you field seed prices including freight. No obligation, and we're glad to do it.

POPCORN

The Very
Best You
Ever Ate

There's nothing like a bowl of good popcorn on these long fall and winter evenings. Popcorn has been a specialty with us for many years. We try all the new varieties as soon as they come out and we've introduced some of the finest of the newer hybrids, so you can see we do know good popcorn. We, therefore, sell only the best.

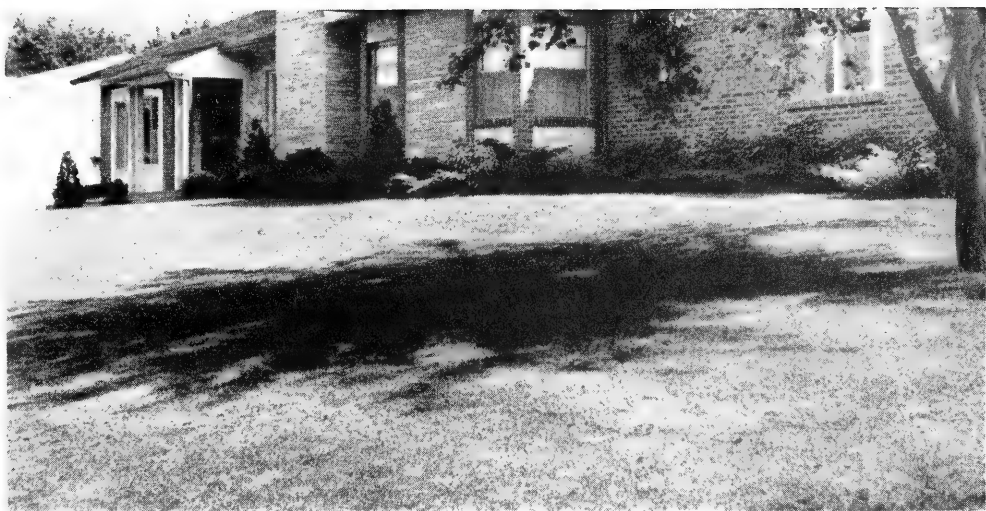

This fall we are very fortunate in having two extra-fine varieties. Both are hybrids and simply cannot be beat for flavor or quality. Every bit of the corn is guaranteed to pop.

Order No. 190—Yellow Hybrid South American. Pops big, creamy yellow flakes. 5 lbs. for 1.25.

Order No. 191—Hybrid White Hulless. The small white kind. 4 lbs. for 1.25.

(We pay postage on orders to Iowa, Missouri, Nebraska and Kansas. If you do not live in one of these states, please add 5c a pound to help cover postage.)

P.S. With each order we will enclose a leaflet of popcorn recipes.

FALL Is the Best Time to Plant LAWN SEED

Nature sows its grass seed in the fall, and you should too. The grass gets up before cold weather comes and, the following spring, gets the benefit of moisture from melting snow and early spring rains. Also, your lawn will be off to a good start before the weeds, which don't start growing until warmer weather.

For a new lawn, sow 1 lb. of seed per 200 square feet. For an old lawn, figure 1 lb. per 400 square feet. However, Merion Bluegrass goes further, as explained below.

Write for free instructions on planting a new lawn and repairing an old lawn. Also on how to make Bluegrass germinate in 7 days instead of the usual 21 days!

Extra Select, Pure KENTUCKY BLUEGRASS

This is extra select, heavy weight, pure Kentucky Bluegrass of highest quality, carefully cleaned and re-cleaned. Free of weeds, and of highest germination.

No. 8001—1 lb., 1.45; 3 lbs., 3.49; 5 lbs., 5.79; 10 lbs., 10.95, all postpaid.

Field's Famous Heavy KENTUCKY BLUEGRASS

Just like the Kentucky Bluegrass listed above excepting the seed is not quite as heavy in weight—still far better than the average and as good as any for all practical purposes. 8000—1 lb., 1.29; 3 lbs., 3.42; 5 lbs., 5.49; 10 lbs., 10.45, postpaid.

Field's Famous Bargain Lot LAWN SEED MIX

The base of this fine lawn seed mixture is heavy weight Kentucky Bluegrass. Other quick-growing grasses and clover make it ideal for patching up an old lawn, or to help cut the cost of seeding a new one. Not quite as good as our Best and Better Grades listed below, but it is honest, and you will get your money's worth. 8044—1 lb., 1.09; 3 lbs., 2.79; 5 lbs., 4.29; 10 lbs., 8.29, postpaid.

Field's Famous Better EVERGREEN LAWN MIX

Our most popular lawn mixture of heavy weight, weed-free seed with just the right amount of each grass in the mixture for a perfect, quick starting, permanent, green lawn. Well adapted for all soil types. Contains lots of Kentucky Bluegrass seed. 8040—1 lb., 1.19; 3 lbs., 2.98; 5 lbs., 4.59; 10 lbs., 8.98, postpaid.

Field's Famous Best EVERGREEN LAWN MIX

A blend of best grasses with large percentage of Kentucky Bluegrass of our own harvest. For open and sunny or lightly shaded lawn. Good on all soil types. Hormone treated. Worth the little difference in cost. 8042—1 lb., 1.29; 3 lbs., 3.49; 5 lbs., 5.49; 10 lbs., 10.49, postpaid.

BENT GRASS For Velvety Lawns

Makes greenest, most velvety lawn of all grasses in full sun or part shade. Sow separately or mix

with other seed. Spreads quickly by underground and overground root system. Used on golf greens. Only one pound needed per 500 square feet. Hormone treated. 8020—1 lb., 1.39; 3 lbs., 3.39; 5 lbs., 5.49; 10 lbs., 10.49, postpaid.

WHITE DUTCH CLOVER

Thrives on poor soil and enriches it. Makes excellent nurse crop; helps keep out weeds while grass is getting established. 8030—1 lb., 1.49; 3 lbs., 4.20; 5 lbs., 6.45; 10 lbs., 11.95, ppd.

Our Merion Bluegrass Mixture Will Give You a Prettier, Healthier Lawn

Our new 100% perennial grass mixture containing 30% Merion Bluegrass—the finest of all Bluegrass, 50% Creeping Fescue—to thicken the turf, 10% Highland Bent Grass—the most disease and drought tolerant of all the Bents, and 10% Red Top—for thin soils and to act as a nurse crop.

The seed in this mixture goes more than twice as far as most grass seed mixtures, so figure 1 pound per 750 sq. feet.

No. 8012—1 lb., 2.15; 3 lbs., 5.85; 5 lbs., 9.45; 10 lbs., 18.45, postpaid.

New Merion Bluegrass

For those of you who want the pure Merion Bluegrass to plant in a new lawn or add to an old one, we can supply you with a limited amount of seed.

Here, in short, are the main advantages of Merion Bluegrass:

- (1) Has an excellent dark green color and appearance.
- (2) Helps crowd out Crabgrass and other weeds.
- (3) Is highly resistant to heat and drought—stays dark even in the hottest, driest weather.
- (4) Has high resistance to leaf spot and other diseases.
- (5) Requires less mowing.
- (6) You use less seed when planting because plants spread fast.

Use 1 pound of seed per 750 sq. feet of lawn surface.

No. 8010—1 lb., 3.89; 3 lbs., 10.89; 5 lbs., 17.85, postpaid.

All Henry Field LAWN GRASS SEED is HORMONE TREATED

Henry Field's Hormone Treated Lawn Seed will give you a healthier, more drought-resistant, greener, more permanent lawn than untreated seed will. The hormone treatment causes more seeds to grow and makes them more resistant to "damping off" and other soil-borne diseases. It promotes deeper root growth, which makes a heavier lawn more able to stand drought. And you get these advantages at no extra cost to you.

HOME and GARDEN AIDS

SOOT DESTROYER Rids Your Furnace of Soot— Easily, Safely

Here's a product that is just the thing for cleaning soot and carbon from furnaces, stoves and chimneys. And it is easy, safe and inexpensive to use.

Soot Destroyer, which is a nonexplosive powder, is chemically perfected to destroy soot and carbon in coal, oil or wood-burning furnaces, stoves, boilers, etc., and in chimneys. You merely put the required amount of powder into your heating equipment when the fire is going and that's all there is to it.

If you have never cleaned the soot and carbon out of your heating equipment, we suggest you use a can of Soot Destroyer this fall. By using it, not only will you get more heat from less fuel, but you will eliminate the danger of flue and chimney fires caused by excessive soot and carbon.

We guarantee it to do the job or your money back. Simple directions on each can.

Order No. 4049—Soot Destroyer. 1-lb. can (normally enough for several cleanings,) 65c; 3 1-lb. cans, 1.65, postpaid.

DORMATONE

Prevents Potatoes from Sprouting

You can now store your home-grown potatoes for months without cold storage by using Dormatone, the hormone sprout inhibitor that prevents sprouting, softening and shriveling.

Use of Dormatone actually eliminates spoilage and large loss of weight. Shrinkage is cut down 10% to 15%. In addition, it helps retain the nutritional value of potatoes and actually improves their cooking and eating qualities. Dormatone can also be used with equal success on other root crops, such as beets, carrots, turnips and rutabagas.

It's easy and inexpensive to use—you just dust it on. Absolutely harmless, too. We've tried it on all sorts of root crops and are completely sold on it.

Order No. 4053. 12-oz. sifter can (treats 8 bu.) for 1.00, postpaid.

WARFARIN

Best of All Rat and Mouse Poisons

Sensational new Warfarin is by far the most effective rat and mouse poison on the market today. If used according to directions, Warfarin never fails. It kills whole colonies easily and inexpensively!

Warfarin is a better rodenticide for these four reasons:

- (1) It is much less dangerous to humans, livestock, pets and poultry.

- (2) You don't have to bother with two different poisons. Warfarin gets both rats and mice.

- (3) Warfarin is odorless and tasteless. Rodents do not develop "bait shyness".

- (4) Warfarin kills slowly. Dead and dying rats do not warn rest of colony.

Discovered at the University of Wisconsin and released in 1950 for general distribution, Warfarin is now on the market under several different brand names. Naturally, we think that our "Henry Field Warfarin Rat and Mouse Killer" is the best of all.

We sell it in three forms:

(1) Warfarin Concentrate, which you mix with bait such as laying mash, ground oats, or cornmeal. Order No. 4070. Warfarin Concentrate. 4-oz. can (makes 5 lbs. bait) 1.75; 8-oz. can (makes 10 lbs. bait) 3.00, postpaid.

(2) Ready-Mixed Warfarin, which is already mixed and ready for use. Order No. 4063. Ready-Mixed Warfarin. 1 lb. 98c; 5 lbs. 2.95, postpaid.

4047—Liquid Warfarin Concentrate. The latest in Warfarin. Mix $\frac{1}{2}$ oz. with 1 quart of water. Can be used alone or with Warfarin dry bait. Rats and mice often will drink when they do not want to eat. $\frac{1}{2}$ oz. 59c, ppd.

All three are fully guaranteed. Simple directions come on each can.

DOG REPELLENT

Protect your shrubs and evergreens with Henry Field's Dog Repellent. Extremely offensive to dogs and cats. Guaranteed not to harm the plants. Apply on the ground around the evergreens (not directly on them). One application lasts several weeks. 4026—8 oz. can, 98c; 2 cans (season's supply) 1.65, ppd.

Rodent Ruin FOR KILLING MOLES & GOPHERS

Drop a cake in the mole run or gopher hole and your troubles are over. Acts as stomach poison. Gets them quick. Can't harm poultry or animals.

4001—Large box (90 pieces) 50c; 2 for 95c, postpaid.

RABBIT REPELLENT

No rabbit will eat plants, shrubs or trees protected with Henry Field's Rabbit Repellent. Neither will deer.

You can use it any time up until any edible portion appears on the plant. You shake it on as a dry dust or mix it with water and spray it on. One can makes three gallons of spray. Money back guarantee.

No. 4057—1 can (8 oz.) 1.35; 2 cans (16 oz.) for 2.50. Postpaid.

ESPECIALLY for HOUSE PLANTS

The following four items will help you grow healthy, more beautiful house plants. They are four basic house plant helps which we have selected from many.

INSECT BOMB for HOUSE PLANTS

So easy to use—simply remove protective cover, press down on push button. Especially made for African violets but good on practically all house plants. For control of mealy bugs, mites, aphids, exposed thrips, white fly and certain other insects. Safe. 4042—1.25 each; 2 for 2.25, ppd.

POTTING SOIL

Contains Iowa loam soil with added humus, nitrogen, phosphorus and potash, plus vitamins B₁ and B₂, plus Rootone for stimulating root growth. 1 gallon is enough for 10 to 12 4-inch flower pots. 4062— $\frac{1}{2}$ gallon, 1.19; 1 gallon, 1.74. Both postpaid.

"GARDEN LIFE" PLANT FOOD

A Good Plant Food for African Violets

"Garden Life Plant Food" is a fine new plant food made especially for African violets.

Consisting of nitrogen, available phosphoric acid and soluble potash, it is a very effective plant food that produces faster growth, bigger blooms and better colors.

Although it is made especially for African violets, it also produces good results when used on all house plants, garden plants, tomatoes, strawberries, roses, shrubs, transplants, and cuttings.

It comes in a highly concentrated powder form, so a little goes a long way. You just mix the powder with water and apply. Full simple directions are on the can.

Order No. 4036. 5 oz. pkg., 65c; 14 oz. pkg., 1.25, postpaid.

Attractive Plastic FLOWER POT

After several years of searching, we finally have found a plastic flower pot we can recommend. Not only is this one very attractive, but it is sturdy and well made.

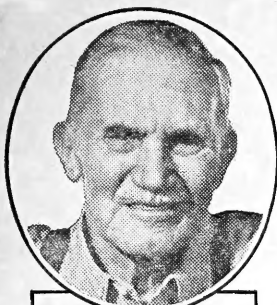

It is $4\frac{1}{2}$ inches wide at the top and 4 inches high. Has a separate saucer so that plants may be watered from the bottom.

The pot comes in these colors: chartreuse, copper, red, black. State your color choice on your order.

Order No. 4031—Plastic Flower Pot. 48c each; 3 for 1.25, postpaid.

For SHADE in a HURRY!

Henry Field's NEW, HARDY HYBRID ELM

The Fastest Growing Tree in the Temperate Zone!

This amazing new tree combines the permanence and beauty of the American Elm with the rapid growth of the Chinese Elm. Grows 8 to 14 feet per year — giving you shade in a hurry! And it's apparently immune to Dutch Elm disease. It is extra hardy. Keeps right on growing in weather hot and cold, wet or dry. Its leaves are large and dark green; the bark is smooth and a medium grey color. The branches are straight and strong — won't break in a high wind. Hybrid Elms sometimes start slowly after planting. Maybe they won't do much for two months or so. Then all of a sudden, they start growing like mad. It's the nature of the tree so be patient with it.

The best time to plant Hybrid Elms is in the fall when trees become dormant enough to move (usually Oct., when we ship), up until the ground freezes solid. Mound a pile of dirt around base of the tree this winter to prevent frost heaving. Rabbits like young Hybrid Elms, so tie fine-mesh wire or our Aluminum Tree Protectors, or heavy paper, around the trunk for the first couple of winters.

Fall is a Fine Time to Plant Them POSTPAID PRICES

Morrison is a new, large, late maturing black raspberry of extra fine quality. The plants are vigorous and hardy, and are heavy producers of very large berries that are delicious eaten fresh, as preserves, in jams, or frozen. Plants are considerably more drought-resistant than other black raspberries. Due to its late ripening, the fruit commands a very high market price.

Our Nursery Guarantee

All our stock is guaranteed. If you are not pleased with it in every way when you receive it, return it promptly, at our expense, and we will replace it or refund your money, whichever you prefer.

After you have planted it, if it fails to grow, we think we should both take part of the blame. We will take one-half and you and the weather take the other, and we'll replace at half-price anything unsatisfactory through any fault of the stock if you notify us not later than May 1, 1956. Accompany your report with a remittance of one-half the original purchase price.

If you wonder how we can make such a guarantee, here are some of the reasons:

1. Our nursery stock is all state inspected.
2. Our nursery stock is free from disease.
3. Our nursery stock is of the highest quality.
4. Our nursery stock is true to name.
5. Our nursery stock is mature, live, ready-to-grow stock, first-class in every way.

No C. O. D.'s, Please

Unfortunately, we just can't ship C.O.D. There are so many delays in shipping this way that it isn't practical. Nursery stock should be planted just as soon as possible after leaving here, and if it has to wait around to be delivered it may not do too well. So, this is for your own protection. C.O.D.'s always cause a lot of red tape, which in turn causes higher prices. We know you folks want to buy things at as low a price as possible, so by not having C.O.D.'s, we can keep our prices down.

Trees, Roses, Shrubs Can't Be Shipped Until They're Dormant

Each fall we receive letters from some of our customers asking why they haven't yet received their shade trees, fruit trees, shrubs and roses, or why these items weren't received at the same time they got their tulips, daffodils and other fall-planted bulbs.

This article, we hope, will answer most of the questions you may have about when we ship things in the fall.

We Start Shipping Bulbs and Perennials In September

Fall bulbs are ripe and ready to plant from about the early part of September on. Therefore, as soon as we receive them from Holland, we ship them right on to you. Most perennials are ready for planting by at least September 15, and these, too, are usually shipped out in a hurry.

But, with shade trees, fruit trees, shrubs and roses, it's different. We can't ship them until the plants have dropped their leaves and become dormant. Ordinarily it takes one or two good strong frosts to kill the foliage on this type of nursery stock. Then and only then can these items be dug and shipped.

Start Shipping Trees and Shrubs About October 15

Usually our shrubs, trees, etc., are ready for shipping about October 15—sometimes a little later than that. But even if we were able to send out these items before October 15, they shouldn't be planted that early anyway. The weather usually is much too warm.

You Can Plant Quite Late in Fall

We have found fall a natural time to plant nursery stock. It doesn't matter in the least if there is a heavy frozen crust on the ground at the time you plant. Just break through the frozen crust and plant the tree or shrub. Then mound it up well so that the frost will not heave it out before spring. That is all there is to fall planting.

Have You Tried FALL PLANTING?

Ten or fifteen years ago, a great many people simply didn't believe in fall planting anything excepting the fall bulbs such as tulips and daffodils.

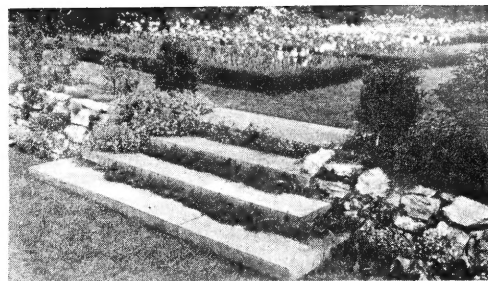

However, Henry Field kept on preaching the merits of fall planting. The state college experiment stations kept on, and many of the magazines and newspapers advocated it. So more and more people tried fall planting, and found it good. The result is that now practically no one hesitates to plant in the fall. Even so, perhaps it would be well to list some of the main advantages of fall planting. They are these:

(1) Plants get six-months head start.

The roots of fall planted stock do considerable root growing in the late fall and early spring and become established well ahead of spring planted stock.

(2) **Stand up better.** Because they're established, and since they have had the benefit of early moisture, the plants can take the first hot, dry summer weather better.

(3) **Often bloom first spring.** Fall planted plants often bloom the first

Early Spring can be beautiful in your yard too if you plant this Fall.

spring, as they are sufficiently established to do so.

(4) **People can usually put in a better garden.** Because most people are busier in the spring than in fall, they don't put in nearly as many plants as they would like. In the fall you can do more leisurely, careful, and, therefore, better planting.

Since you order spring blooming bulbs, such as tulips, Hyacinths, etc., in the fall, just add whatever nursery stock and perennials you would like. We'll send you first-class stock, in first-class condition and you can see for yourself how successful fall planting is.

Plant your fall bulbs properly so that they have every chance of success and thus play their full part in beautifying your garden.

The above chart shows you how deep to plant the bulbs, and how far apart. However, if the ground has been newly spaded, and is quite loose, plant the bulbs an inch

or so deeper to allow for settling, and because of the increased effect of frost heaving on newly turned soil. Also, late planted bulbs, which have no opportunity to make roots before the soil freezes, should be set a little deeper to protect them from frost action.

Field
SEED & NURSERY

HENRY FIELD SEED and NURSERY CO., Shenandoah, Iowa

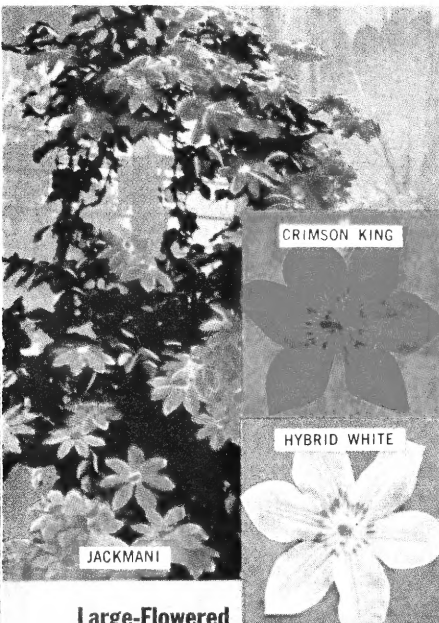

4 ENTRANCE EVERGREENS } **2 Pfitzer Junipers 10" to 12"**
2 Pyramidal Silver Junipers, 12" to 18" only **\$6.39** PPD

Save Up to Twenty Dollars

IN61X—If you bought these four evergreens in the larger size, and balled and burlapped, they would cost you about \$20.00 more than this price. These are smaller in size, and therefore need not be balled and burlapped, but they have been transplanted three times for strong, compact root growth. In a few years, they grow to be as big as anyone's. And are a lot easier to plant.

These four evergreens are ideal for an entrance planting, as pictured above, but of course there are many other ways in general landscaping that you can use 2 spreading Pfitzers and 2 upright Junipers.

FREE GIFT: 1 Colorado Blue Spruce worth \$2.00. None better for lawn or specimen planting, and grows into a perfect Christmas tree.

CRIMSON KING

HYBRID WHITE

JACKMANI

Large-Flowered HYBRID CLEMATIS

Flowers Up to 6" Across!

Hybrid Clematis do exceptionally well when planted in the fall. We send you plants out of 2 1/4" pots as we find this size does best. Plant them on the east or northeast preferably. Mound over with dirt for the winter, and next spring, they will grow and bloom beautifully.

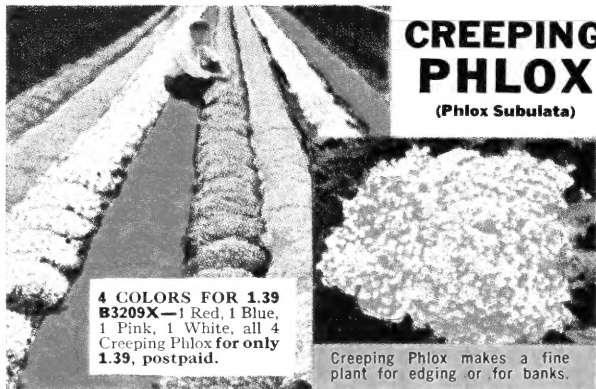

A1709—JACKMANI. The old favorite rich purple.

A1710—CRIMSON KING. A brilliant crimson.

A1714—Hybrid White (Lanuginosa Candida). Big, gorgeous blooms and lots of them.

Individual postpaid prices: **98c each; 2 for 1.85.**

All 3 for only \$2.69 Ppd.

(Phlox Subulata)

4 COLORS FOR 1.39
B3209X—1 Red, 1 Blue, 1 Pink, 1 White, all 4 Creeping Phlox for only 1.39, postpaid.

Creeping Phlox makes a fine plant for edging or for banks.

Make a Carpet of Brightly Colored Flowers

Each plant grows 18 to 24" wide but only 3 or 4" tall, making a mass of tiny, green, moss-like foliage that stays green all winter. In the spring, it is literally covered with a blanket of brightly colored flowers. Thrives in full sun or partial shade.

Use it as a colorful low edging for the perennial border, or along a driveway or walk. Also very good for stopping wash on terraces.

1 each of 4 different colors for only **1.39**, as shown in the collection to the left.

RED "Rosebud"

WHITE "Rosebud"

PINK "Rosebud"

3 New, Delightful, Double "ROSEBUD" BEGONIAS

These plants grow round and solid, with many clusters of small, double flowers that look just like little rose buds. Easy to grow, very beautiful.

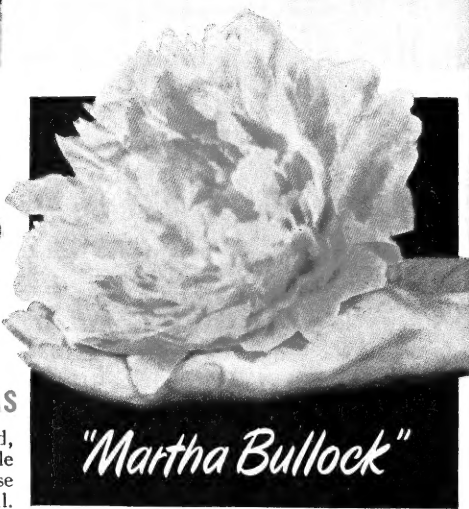

They make wonderful indoor plants and are ideal outdoors in summer in semi-shaded spots, and in window and porch boxes, because they bloom profusely and almost constantly.

N220—Double "Rose Bud" Begonia Red.

N221—Double "Rose Bud" Begonia Pink.

N222—Double "Rose Bud" Begonia White.

Individual Prices: **75c each.**

"Martha Bullock"

The Largest Flowering of All Peonies

B1536—Rated 9.1. Peony experts recognize it as one of the three best of all peonies. Its blooms are almost as large as the ordinary-size dinner plate. The outer petals are a soft rose pink; the full, fluffy center is a pale shell pink. This is no shy beauty—the stems are stiff, strong, and hold the immense, fragrant blossoms upright where they can be seen. **1.25 each; 3 for 3.49, postpaid.**
